**STATEMENT OF OBJECTS AND REASONS**

It is function of the state to protect the inviolable dignity of children as human rights. Corporal or physical and psychological punishment is common and rampant in our schools and is also found in “care institutions”. It is used as a form of showing control, intimidation and authority. For children, life is never easy or fair, therefore, within the institutional framework of the classroom, corporal punishment must be banned and replaced with constructive and communicative and communicative approach. Similarly, in child care institutions corporal punishment can become a form of abuse. These are the reasons for which this Bill seeks to eliminate corporal punishment.
